

Make your journey to technology and innovation at The IMAPS-Europe Flagship Conference

[EMPC 2023 | The 24th European Microelectronics & Packaging Conference and Exhibition](#)
11th-14th September 2023 in Cambridge, England

Headed by eminent Keynotes, the Programme comprising parallel Technical Sessions of slide and poster oral presentations, EMPC-2023 is a must for engineers and scientists to keep at the forefront of microelectronics technology. Excellent Papers accepted by leading international referees are scheduled to be presented at the Conference Sessions comprising:

Advanced Packaging Technologies, Performance and Reliability, Design & Process Optimisation, Markets and Developments, Semiconductor Industry Trends, System Integration, Innovative Materials, Design and Test,

The exhibition houses major companies at EMPC-2023 showing innovative equipment, techniques and services to benefit your organisation [Exhibition | EMPC 2023](#)

Informative short courses preceding the conference provide the opportunity to learn and progress your professional development, [Short Courses, PDCs | EMPC 2023](#)

Set in Historic Cambridge – the centre for scientific excellence and innovation
[Where else should you be - in September 2023?](#)

The Wellcome Genome Campus

Accommodation and travel: There are excellent places to stay, some with easy shuttles to and from the conference. Plenty of choice [Accommodation | EMPC 2023](#)
