

30 Free IEEE+EPS Student Memberships!

Student Chapter Promotion Program

EPS has initiated a *one-time* program to promote the formation of 5 *new* student chapters in 2020. Six students who are willing to serve as executive committee (exco) members in a new student chapter will be given free IEEE+EPS student memberships for 2020. Additionally, a faculty member who is willing to serve as the Advisor to a new student chapter will also be given a free IEEE+EPS membership.

Implementation

1. Gather 6 graduate or undergraduate students from your university who are willing to be exco members in a new EPS student chapter, and a faculty in the university willing to be Advisor.
2. Vote for one student to serve as the Interim Chapter Chair who will email the names and email addresses of all 6 students and the Advisor to the EPS Director of Student Programs.
3. Free IEEE+EPS memberships will be processed on condition that the chapter will be formed.
4. Upon notification of successful membership, the Interim Chapter Chair will proceed to submit an online petition to IEEE to form a new EPS student chapter.
5. *Only 5 new student chapters* will be supported on a first-come-first-served basis, based on the date when the list of names and email addresses of the 6 students and the Advisor is received, *starting now!*

Student Member Benefits

IEEE Spectrum Magazine - the flagship publication of IEEE, explores the development, applications and implications of new technologies.

myIEEE- an interactive web portal exclusive to IEEE Members which allows for the customization of the member experience using gadgets, RSS feeds, et. al.

IEEE.tv™- Internet television offering exclusive programming about technology and engineering.

IEEE memberNET- an online search and networking tool that enables members to connect with technical and engineering experts worldwide.

IEEE Potentials Magazine - the only student-focused magazine within all of IEEE!

What's New for Students- electronic newsletter for students and graduate student members highlighting resources and new benefits within IEEE.

IEEEExplore - discounted access to more than 3 million documents.

IEEE ResumeLab- an online service that allows IEEE members to develop a resume.

IEEE email alias- free for members with virus protection and spam filtering.

IEEE Discounts- membership pays for itself with as much as 50% off IEEE products.

Career Alerts- a weekly email containing career advice plus the job of the week from IEEE Job Site.

Job Site- helps to locate career opportunities easily and confidentially.

Mentorship- Approach senior professionals to become your career mentors.

Networking- Opportunities to network with professionals in electronics packaging.

Leadership Development- Opportunities for leadership development through special IEEE programs and organisation of chapter activities.
