

Dear Colleagues,

IEEE COMCAS 2021, The International Conference on Microwaves, Communications, Antennas, Biomedical Engineering & Electronic Systems will be held on **November 1-3, 2021** in **Tel Aviv**, Israel.

IEEE COMCAS is one of the world leading IEEE conferences, and we expect to welcome Scientists, Engineers, Managers, and Researchers (from academia, industry and government institutions) from all over the world.

In 2021 the International IEEE COMCAS will continue to evolve and provide an advanced multidisciplinary forum for the exchange of ideas, research results, and industry experience in a range of key areas i.e., communications and sensors, antennas, biomedical engineering, RF and Microwave devices and circuits, thermal management and electronic packaging, signal processing and imaging, as well as radar, acoustics and Microwave system engineering. In its entirety the event includes a technical program, industry exhibits, and guest presentations from global experts on recent academic and industry advancements.

Israel is among the first countries to begin recovery from COVID-19. Thanks to our mass vaccination drive, the economy is starting to return to normal, face 2 face conferences and events are happening again and we are pleased to announce that IEEE COMCAS, one of the leading international conferences will occur before the end of 2021.

Although the number of people diagnosed with Covid keeps declining, the rules and regulations of social distancing and masks wearing are still followed and gatherings are taking place in spacious halls with high attention to hygiene and cleanliness.

IEEE COMCAS is a wonderful opportunity to visit Israel which is gradually re-opening its borders, and enjoy the good energy and the feeling of the world returning to its former state.

Authors are invited to submit their contributions for review electronically. Papers are solicited in a wide range of topics.

All submitted papers will be peer reviewed. Accepted ones will be published in the IEEE COMCAS 2021 Proceedings. Presented full papers will be submitted for inclusion to IEEE Xplore®.

IEEE COMAS 2021 will continue to feature, the contests for:

**The Mini-Circuits Harvey Kaylie Best Paper Award
The Mini-Circuits Harvey Kaylie Best Student Paper Award
And The European Microwave Association (EuMA) Student Paper Awards**

See more details at the attached CFP

Important Dates:

July 1, 2021 - Proposals deadline for workshops, short courses and tutorials

July 12, 2021 – Summary / Paper submission deadline

August 20, 2021 – Notification of Acceptance

September 10, 2021 - Final manuscript submission and registration deadline

For author's instructions and further information, see [Call for Papers](#) or visit the conference web site: www.comcas.org

Best regards,

Shmuel Auster, Conference General Chair
Amir Boag, Technical Program Committee Chair
